Education

OCAD University
Toronto, ON

Bachelor of Design,
Industrial Design
Sept 2016 - May 2020

CIBC Product Design Lead

Full-time | Personal & Commercial Banking | Toronto, ON

- Led end-to-end design for enterprise banking across multi-step workflows.
- Reduced service time by an estimated 10% for digital bank draft orders.
- Contributed to the design system and drove adoption of new design patterns.
- Conducted usability tests using Maze to challenge design assumptions.
- Partnered with Product, Engineering, and User Research on UX decisions.

August 2022 - May 2025

Kinsdesign Freelance Designer

Part-time | Contract Work | Toronto, ON

- Designed in Figma using Auto Layout and built CMS-enabled Framer sites.
- Collaborated with clients to refine designs based on feedback and requirements.
- Trained and enabled clients to independently manage CMS content updates.
- Created future-state mobile app concepts using scalable design patterns.
- Delivered organized, documented Figma files for multi-page website hand-off.

April 2025 - March 2026

RBC Digital Interaction Designer

Full-time | Personal & Commercial Banking | Toronto, ON

- Improved Direct Investing mobile experience used by 700K+ users.
- Facilitated design studios to enable iterative UX decision-making.
- Conducted guerrilla usability testing to accelerate insight gathering.
- Collaborated with visual designers to translate wireframes into high-fidelity.
- Created handoff documentation to support design continuity across the team.

May 2019 - August 2019

Market Gravity Design & Innovation Consultant

Internship | Deloitte Business | Toronto, ON

- Led Design4 team coordination to streamline cross-functional delivery.
- Defined a product proposition for a major North American grocery retailer.
- Designed a mobile app concept for a circular meal kit delivery system.
- Conducted customer interviews to inform early-stage product concepts.
- Presented product concepts and recommendations to senior stakeholders.

October 2018 - May 2019
